The reputation of Buick cars is one that has been formed over the course of many years. Although many of the early American cars were very much in the category of "dirt-track brawler", being the kind of vehicle that could hold its own in a fight but not built for luxury, General Motors spotted a gap in the market for something that could boast a little bit more quality, and the Buick brand ...

If your Buick ABS and Traction lights stay on, it means the Electronic Brake Control Module (EBCM) has detected a problem. In most cases, the problem is caused by a bad wheel speed sensor. With the ABS light on, your wheels may lock up during emergency braking which could result in the vehicle skidding. Your car may require a longer distance for braking or even lose traction when going around ...
